

# THE INCREDIBLE SOL-U-PAK<sup>®</sup>

## What is a Sol-U-Pak<sup>™</sup>?

A Sol-U-Pak<sup>™</sup> is a pouch that is soluble in cold water. The pouch is made entirely of edible packaging film. All components of this film have FDA approval for food use.

## What Can You Put Inside a Sol-U-Pak<sup>™</sup>?

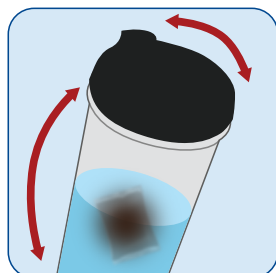

- Protein powders
- Pre-workout drink mixes
- Post-workout drink mixes
- Your custom formulations

## How Do You Use a Sol-U-Pak<sup>™</sup>?

It's as simple as dropping a Sol-U-Pak<sup>™</sup> into a shaker bottle with cold water, shaking to dissolve, then drinking! The Sol-U-Pak only takes about 10 seconds to dissolve.

**Drop Sol-U-Pak into cold water**

**Close bottle and shake vigorously**

**Enjoy**

## In summary:

- Convenient
- Premeasured
- Portable – grab and go
- No more heavy tubs, messy powders, or fiddly scoops!

### Watson EM 1102 Packaging Film

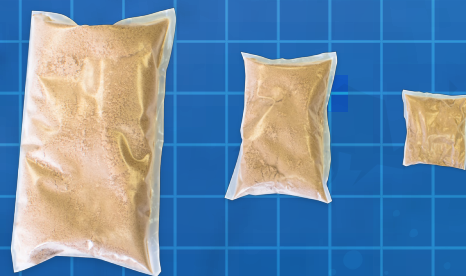

### Powdered Mix of Your Choice

- Protein powders
- Pre-workout drink mix
- Post-workout drink mix
- Custom Formulation
- Edible Glitter<sup>™</sup>

## Difference Sizes available

1 oz to 1 lb

## Benefits for your customers:

In a word, the main benefit is **convenience**.

Mainstream consumers are looking for convenience and alternative delivery methods. Offering a range of delivery forms will help brands strengthen product adoption rates, continued use, and customer loyalty. Sol-U-Pak™ pouches of powdered drink mixes and protein powders provide the ultimate single serve convenience.

## Complete solutions available:

We can provide the solution that best fits your needs ...

### 1. Edible Packaging Film

We can provide the edible packaging film to you or your co-packers.

### 2. Your Complete Solution

Watson has the ability to blend, instantize, spray dry and granulate, all under one roof. We can manufacture your complete drink mix, and provide a Certificate of Analysis from our in-house QC lab and pack it off in our Sol-u-Pak™ pouches.

### 3. Edible Glitter™

Include Edible Glitter™ in your powdered mix to add color and appeal. Edible Glitter™ will dissolve and provide color to the beverage.

## EM 1102 Packaging Film - Sol-U-Pak™ Material F2971021

**Description:** EM1102 Packaging Film is a food grade, water-soluble, edible, heat-sealable packaging film designed for use in form, fill, & seal machines.

**Ingredients:** Hydroxypropyl methylcellulose, propylene glycol, citric acid, & modified food starch

It is the responsibility of the end user to determine the suitability of the product for the intended use and compliance with local and appropriate regulations.
